

ALI ABDELBASIR ABDALLAH SHEHATA

Cairo, Egypt | 01279509616 | totyfruit11@gmail.com | [LinkedIn](#) | [GitHub](#)

Objective

Software Engineer with a strong foundation in Computer Science and hands-on experience in building integrated systems. Currently specializing in **Software Development (Python & Django)** while leveraging a solid background in hardware and embedded systems to build robust and efficient applications.

Education

Bachelor's Degree in Computer Science | 09/2022 - 06/2026 (Expected) | **Benha University**

- **Key Coursework:** Object-Oriented Programming (OOP), Data Structures, Algorithms, Database Management (SQL), Software Engineering.

Skills & Abilities

- **Software Development:** Python, Django, Tkinter (GUI), SQL.
- **Programming Languages:** C/C++, Python, SQL.
- **Technical Background:** Hardware & Software Integration, PCB Design, Arduino IDE.
- **Tools:** GitHub, Version Control.
- **Languages:** Arabic (Native), English (Intermediate).

Experience

Hardware & Embedded Systems Engineer | Aseel Control, Cairo | 09/2021 – 11/2024

- Demonstrated professional commitment and technical problem-solving in a real-world engineering environment.
- Contributed to complex integration projects, including the "Boxing Machine" project, as a core team member.
- Developed embedded software and managed electronic board assembly (PCB), ensuring seamless hardware-software communication.

Projects

Software & Web Development Projects

- Building full-stack applications using **Django** and **Python** (Details available on GitHub).
- Developing desktop applications with Python and **Tkinter**.
- Collaborative projects involving automated control systems and hardware programming.
